

AIRD and CIRD Designation Applications

IAIR utilizes the same designation application for all types of designations. The application requires the following information:

- A certification that the applicant meets the minimum requirements for the designation;
- A certification that the applicant meets the continuing education requirements (CIRD only);
- A certification that the applicant has read the IAIR Ethics Policy and meets IAIR's ethical standards;
- A selection of the type of designation requested;
- Personal information;
- Information on formal education and training;
- Professional experience information for the previous 5 years;
- Information regarding other professional certifications;
- Three references regarding the applicant's involvement and competence in the business of insurance;
- Information regarding continuing education credits earned in the previous 12 months;
- Application fee;
- Completion of the IAIR Background Certification Form
